Our Weekly Mining Review.

A Week's Business at the New York Boards - The Leadville Stocks -Along the Constock Line.

Special Correspondence of THE CITIZEN. business for the week at the mining stock boards has been large, notwithstanding the fact that it was broken of the Globe Mercantile Company, in upon by the Thanksgiving holiday. who has charge of the property, con-Stocks have been active and irregular, although some of them, especially the Limenia, and this time he struck it as Leadville properties, show an advance rich as could be asked for. The vein and other machinery are already in over the closing prices of last week. on this claim shows a large width on over the closing prices are recorded at the surface, and the work done before welcome sound of their stamps. A both exchanges. The outside public only prospected a portion of it, and still show a reluctance to take an active part in the speculation of the boards. There is a more hopeful feeling generally in regard to many of the properties dealt in, but there is also a hesitation to act upon it until results of developments now in progress shall prove that the hope is not entirely unfounded.

A few of the lower-priced stocks, C laveras, record a comparatively attention has been paid to the more substantial stocks.

Copper Knob again records the largest number of shares sold, viz: 244,500 shares for the week, but at declining figures, opening at 18c and selling down to lic, closing at 13c. Rumors have been current on the street of irregularities in the payment of the last dividend by this company, and a committee has been appointed by the American Board to investigate its affairs. It is widely believed, however, that the mine really possesses mcrit, and that the present low price of the stock is solely due to the misfortunes of the Vice-President and principal owner, Brandreth - for whom much sympathy is expressed, especially by his brother members, who also commend the promptitude with which he has settled his con-Brandreth's troubles are thought to be due to his attempt to keep a great many irons in the fire. and as usual in such cases, one of

them got burned. The Leadville stocks have been active, and fluctuations ? have been frequent, with a gradual hardening of prices. The news from Leadville has been more satisfactory than for some time past, and a much more hopeful feeling reigns in regard to the future of the Leadville properties. now that operations have been resumed in the various mines on rryer

Amie has been active and somewhat irregular, opening at 39c, and after fluctuating between 38c and 47c, clos ing at 41c, on sales amounting to 98,-

Climax has also been active and irregular, beginning at 48c and ranging between 46c and 70c, closing at Sales aggregate 40,300 shares.

Chrysolite has been quiet and fairly steady, opening and closing at \$63g having in the meantime touched \$6% and \$714. Total sales, 15,250 shares. A fair amount of business has been done in little chief, at prices ranging from \$1 to \$1.35, closing at \$1.10, on

Little Pittsburg has been neglected. only 320 shares selling at \$214 to Of other Cojorado stocks Hukill has

sales amounting to 2,400 shares. Domingo records sales of 1,600 shares, at \$5 and \$4.95. Silver Clin and records sales of 2,550 shares.

and closes unchanged at \$1.65, on

has been fairly steady at \$214 m 2.15, fron Silver has been very active, opening at \$3.70, and at one time selling up to \$516, but it failed to hold the advantage and closed at \$3.45. The

compromise which followed the judgment recently rendered in the United States Court, in the suit in which this company was involved, was used as a Default ordered to be entered. lever to raise the price, but it seems an unquestioning faith in the speedy | tinued. and proper development of the claims which are now supposed to have all Motion for dismissal denied. hindrances removed to such develop-Sales of 21,300 shares are recorded.

Bodie stocks have been very quiet. & Co. and the one showing the greatest ad vance is Bulwer, which opened at \$1.15 and and closes at \$1.40, on sales of 1780 shares. Bodie has been quiet closing at \$4.80 on sales of 2350

and closing at 99c, on sales of \$100 shures. It is difficult to reconcile the present low price of this stock with the recent payorable reports from the

RICH STRIKE.

In the La Salle Group of Mines a Globe-Three Inches of \$20,000 Rock, and Eight Feet of Good Milling Ore.

GLOBE, December 7. EDITOR CITIZEN: Globe has got it again. This time it was struck in the year ago. At Arivaca the wide street, Limenia, which is a claim belonging Small Sales of Bodie's Dallness to the La Salle group. This group is quite like a start in the right direclocated about one mile from the celebrated Cox & Coplin, and about two thing was hvely. The iron work for from the Emeline. Sometime last the new ten-stamp mill was on the New York, November 27.—The fall there was considerable work done ground, and the timber for setting up on this group and considerable good ore was taken out and milled. Hise, ciuded to have more work done on the with this in view, Mr. Hise started his at the mill, and two shifts of men are work so as to see if the best ore had businy engaged running drifts and been found. This resulted in his sinking the main shalt, now 180 feet finding a pay-streak about three in-ches wide where discovered, that is made and uprises worked from th enormously rich. It will go \$20,000 lower level about 30 feet, so that the per ton, if not more, as it is almost mine will soon be in a condition to pure silver. Add this to the 6 or 8 stope out ore to a good advantage feet of good milling ore, and it places | The walls are well defined and at low the Limenis among the best of our er level of great width, in some places like Copper Knob, Silver Nugget and richest properties. We congratulate being from eight to ten feet apart. Mr. Hise on his discovery, and hope everywhere showing good ore, much large number of shares sold, but aside that in this group he may receive of it of a very superior character. I from these the business of the week all he has put into prospecting here- look for a mine here that would do has been pretty well divided and more tofore-which is no small amount- great credit to any part of the Terriand a good big stake besides.
